shane's **MUSIC**

What does your perfect day sound like? From elegant classical to folksy blues, playful pop, smooth jazz standards and everything in between, my repertoire is the songs that move you. Tell me your story, what you envision for your day, and together we'll design the musical score to capture the beauty and excitement of this moment in your lives. As a finger style instrumentalist, my guitar both sings the melody and accompanies itself, often giving the impression that more than one instrument is being played simultaneously. From standard fare through to exotic unlikely numbers, I will, within reason, play the music of your heart. Have a listen to me on [SoundCloud](#), visit [my website](#) and check out my [YouTube channel](#) for a sample of music and styles that I enjoy playing and sharing.

shane's TESTIMONIALS

Some of my former wedding clients have been generous enough to sit and video a short testimonial, offering insight into their experiences with me as their wedding guitarist. Visit my website [event page](#) to check out these video testimonials. Their comments warm my heart, acknowledging that my efforts and passion do make a difference for their day.

"I absolutely enjoyed your sound. It was so apt for the environment, so organic and real, beautiful! Gorgeous, gorgeous!"
- Raenyn, Bride (Wellington)

wedding PACKAGES

My pricing structure is based on musical contribution, not a strict hourly rate. This approach ensures that you know what I will and won't be providing, so there are no surprises on the day. I have an easy to understand pricing structure, with pre-set packages or custom packages. The choice is yours.

about
SHANE

As your wedding musician, I will musically 'carry' your day - enriching it, providing continuity, so everything fits together like the movements of a symphony. Having played the guitar and performed for most of my lifetime, I take great personal satisfaction in creating the musical foundation for something so meaningful as your wedding celebration. I hope what I offer is a treasured memory, a catalyst to reminiscence. So that, years from now, when you hear a song that I played on your day, you're both suddenly transported back there, and the joy again envelops you.

I live with my wife and our three boys in New Zealand, where I teach guitar lessons online, as well as maintaining my national and international performance schedule.
